APPLICANT TRACKING SYSTEMS

An Applicant Tracking System (**ATS**) is a software application that assists in managing job applications, sorting CVs, and facilitating communication with candidates.

It acts as a gatekeeper and determines whether or not your CV gets shortlisted...

ATS & YOUR JOB SEARCH

CV parsing & data extraction - scans each submitted CV and extracts key information in a searchable format, allowing recruiters to filter and sort candidates based on specific criteria.

Screening & filtering - automatically screens applications, ranking or excluding candidates who do not meet the essential criteria.

ATS RESUME CHECKERS

ATS resume checkers can help you optimise your resume for any job, highlighting the key experience and skills recruiters need to see - **Jobscan, SkillSyncer & Freesummes.com** are some of the most popular ones.

How it works:

1. Copy & paste your CV; and
2. Copy & paste a job description for the role or types of roles you are applying for
3. Receive a match report (shows likelihood % of ATS success)

ATS RESUME CHECKER - JOBSKAN

Jobscan offers a free and paid version so you can try before you buy or just use the intel from the free searches.

Searchability:

- ATS tip
- Contact info
- Summary
- Section headings
- Job title match
- Data formatting
- Education match
- File type

Recruiter Tips:

- Job level match
- Measurable results
- Resume tone
- Web presence
- Word count.

Hard & Soft Skills:

- Match between your CV & job description

Use the feedback from your Jobscan report to update your CV in preparation for your next job application.
